Run 5 detector acceptance layout

TV, UP, and Mighty Tracker XY shapes and z placement

TV: 20 layers from 0 to 780 mm

UP: four layers loaded from visible UP pickles

FT_Baseline: 10 modules at T1/T2, 12 modules at T3

Layout source: examples/run5_layout.csv

XY shapes

Each panel lists the x-y size and central hole size.

Layer placement

TV, UP, and MT layers are placed from the same layout table.

3D sketch

Static overview with nominal UP and the UP lower option shown together.

3D layout view

The interactive HTML view uses the same layout CSV and loaded geometries.

Open the interactive 3D view

docs/combined_tv_up_mt_3d.html

Drag to rotate and scroll to zoom. The view contains TV, UP, FT, and Muon layers.

Static plots in this PDF show the XY inventory and the z placement summary.
